

Who we are

People are not going to care how much you know until they know how much you care.

We do care

Our first objective is to listen to our clients. We need to understand their situation, what they are dealing with currently, and what they could be challenged with going forward. Our solutions for each client accessing their home is different because every client's situation is unique.

Community Outreach

We support our nations Veterans and their families by participating in the grant process with the SAH, HISA and the Virginia Granting Freedom programs.

Grant money is available to veterans with service related disabilities that meet the requirements. This money is provide for specific modifications to existing homes for barrier free living.

We will provide information for applications and guidance on expediting the different grant processes as well as providing the modifications.
